

IAC

This year I attended Intermediates at Conference in May. It is my second time attending and I really enjoyed it. IAC is a program for people in grade 7 through 9 to come to conference and do different activities and talk about the theme, which is different each year. This year the theme was IMAGINE. We did a lot of fun and interesting activities that had to do with Imagine. We talked about what we imagine for ourselves, for the church and for the world. When we arrived, we were split up into different groups called home groups and we did everything with them as well as other groups when we were not all together as one big group. Throughout the time we were there, we did four block activities. Each block activity was focusing on different aspects of imagine and we talked about them through song, games and worship. We also did some activities with Youth Forum, which I really enjoyed. We sang and worshiped together and talked about both of our themes. A few times during the weekend, we went to Conference. For me, that was not the most exciting part of IAC, but we did have some interesting discussions within our table groups. I really enjoyed my time at IAC this year! I got to meet a lot of new people and do lots of fun activities. IAC is so much fun and I cannot wait for Youth Forum in two years!
